VIII. Chairman's Report

Charman Zay reminded the Commissioners to file their Statement of Economic Interest before the May 1, 2024 deadline.

Noting that cyber-attacks on water utilities are on the rise, the Chairman invited Denis Cuvalo, IT Supervisor to update the Commissioners on the status of how the Commission is protecting itself and its customers. Mr. Cuvalo informed the Commissioners of a communication received from the

White House regarding updated EPA guidelines for cybersecurity and noted that the Commission goes above and beyond cybersecurity best practices, monitoring all systems 24/7. Commissioner Healy asked if the Commission investigates other agencies that have been hacked to learn from that. General Manager May assured the Board that the Commission's IT department is vigilant and engaged in post-mortem exercises and cyber-security briefings regularly.

Chairman Zay updated the Commissioners on the most recent efforts in Springfield. DWC lobbyists are working to update and revise The Water Act of 1985. Prospective amendments are intended to reflect recent changes consistent with the Joliet legislation, including the right to utilize design-build and Construction Manager At-Risk project delivery methods through RFQ/RFP process, Project Labor Agreement (PLAs) for large projects which are funded by bond issues, extending Commissioner compensation allowances up to \$10,000 annually, and amending the 25-mile customer limit to 50 miles. Additionally, Chairman Zay noted that we have been working with Federal representatives and intend to submit requests for Congressionally-Directed Spending for the Source Water Project.

General Manager May noted the WaterLink project Phase I is complete and moving on to Phase II.

Commissioner Van Vooren asked for a "shovels in the ground" date for the WaterLink project. General Manager May is projecting a possible Fall groundbreaking in 2024, with the majority of construction occurring in 2025, 2026, and 2027.

MEMORANDUM

To: Paul May, General Manager
From: Cheryl Peterson, Financial Administrator
Date: 4/9/2024
Subject: Financial Report – March 31, 2024

- Water sales to Commission customers for March 2024 were 44.2 million gallons (2.2%) below March 2023 but increased by 59.6 million gallons compared to February 2024. Year-to-date water sales are up by 96.4 million gallons or 0.4% compared to the prior fiscal year.
- Water sales to Commission customers for March were 52.4 million gallons (2.8%) higher than the budgeted anticipated/forecasted sales for the month. Year-to-date water sales were 1,573.8 million gallons (6.7%) above the budgeted anticipated/forecasted sales.
- For the month of March, water billings to customers for O&M costs were \$10.4 million and water purchases from the City of Chicago were \$8.9 million. Water billing receivables at the March month end (\$14.2 million) were down compared to the prior month (\$14.5 million) primarily due to timing of receivables.
- For the eleven months ended March 31, 2024, \$143.3 million of the \$141.2 million revenue budget has been realized. Therefore, 101% of the revenue budget has been accounted for year to date. For the same period, \$138.2 million of the \$148.1 million expenditure budget has been realized, and this accounts for 93% of the expenditure budget.
- Adjusted for seasonality based on a monthly trend, year to date revenues are 110% percent of the current budget and expenses are 101% of the current budget.
- The Operating Reserve, Capital Reserve and Long-Term Water Capital Accounts have reached their respective 2023/2024 fiscal year end minimum targeted levels.
- The O&M and General Account have balances of \$25.8 million and \$30.1 million, respectively.

REQUEST FOR BOARD ACTION

Date: 4/1/2024

Description: Annual Budget and Appropriation Ordinance for the Fiscal Year Commencing May 1, 2024 and Ending April 30, 2025

Agenda Section: Finance Committee

Originating Department: Finance

Ordinance No. O-5-24 would approve and adopt the Combined Annual Budget and Appropriation Ordinance for the Fiscal Year Commencing May 1, 2024 and Ending April 30, 2025 as required by the Commission's By-Laws and the Illinois Municipal Budget Law (50 ILCS 330/1 *et seq.*).

The ordinance is based on the fiscal year 2024-25 Management Budget plus a factor designed to allow the Board of Commissioners the ability to expend all funds available to it during the fiscal year if necessary even though the Management Budget does not contemplate so doing. Personnel costs have been appropriated at 105% of budget. All other operating expenditures and all construction expenditures were appropriated at an amount at least 135% of budget with the exception of cost of water purchases and depreciation expense, which were appropriated at 125%. The fiscal year 2024-25 Management Budget still provides the criteria for management analysis.

REQUEST FOR BOARD ACTION

Date: 4/9/2024

Description: **A Resolution Suspending the Purchasing Procedures and Authorizing the Execution of a Consulting Agreement with IT Savvy LLC for IT Cyber Security Services**

Agenda Section: Administration Committee

Originating Department: Systems & Information Technology

Resolution No. R-32-24 would approve a Consulting and Network Cyber Security Services Agreement with IT Savvy LLC in connection with the Commission's Administrative and SCADA Networks for a twelve-month term.

The Commission utilizes the Administrative and SCADA Networks to perform the critical daily operating tasks of the Commission. Cybercrime is considered the most prolific threat to public utilities. Historically, the Commission has used a variety of IT security solutions to address basic network security. The Commission's objective for Cyber and IT Security is to be at the forefront to protect our network systems.

With the escalation of cyber-attacks within the government and critical infrastructures, the Commission enhanced its IT security with Mandiant's Managed Defense service in 2018. This service provides round-the-clock vigilance, investigation, and mitigation solutions to any type of security breach. It has proven useful in blocking malicious foreign attacks on our system, protecting us from malware to ransomware and continuously safeguarding our endpoint users. The Mandiant Enterprise Network Security solution enables rapid detection and response to evasive threats missed by traditional defenses, across network/web, email, and file systems. This cyber security solution includes utilizing IT Savvy for associated network support.

The Mandiant Managed Defense service is broken down into three cost elements: the NX appliance licensing and bandwidth capacity, the annual cost for the managed defense team coverage and

support, and the quantity-based node coverage for our network appliances and end-user systems. This year's renewal of the managed defense service will be \$132,719.15 compared to last year's service agreement, which reached \$123,293.64. While there were no significant modifications to the services this year, the price has increased due to an adjustment to the appliance licensing cost and bandwidth capacity.

For these reasons and the secure and sensitive nature of being a critical infrastructure, the Commission staff recommends the continued use of the Mandiant service under IT Savvy and authorize the General Manager to execute a twelve-month agreement with IT Savvy LLC in the amount of \$132,719.15.

Operations Overview

The Commission's sales for March 2024 were a total of 1.94 billion gallons. This represents an average daily demand of 62.7 million gallons per day (MGD), which is lower than the March 2023 average day demand of 64.1 MGD. The maximum day demand was 65.5 MGD recorded on March 18, 2024, which is lower than the March 2023 maximum day demand of 72.5 MGD. The minimum day flow was 58.8 MGD.

The recorded total precipitation for March 2024 was 3.33 inches compared to 2.50 inches for March 2023. The level of Lake Michigan for March 2024 is 578.71 (Feet International Great Lakes Datum (IGLD) 1985) compared to 578.84 (Feet IGLD 1985) for March 2023.

Operations & Instrumentation Maintenance and Construction Overview

The modernization upgrade of the DuPage Pump Station's single-car elevator is complete, and the elevator is back in service.

High Lift Pump #9 is under repair and tentatively scheduled to be completed by the end of April. Installation and start-up are tentatively scheduled for May.

Six (6) Water Quality Analyzers for the remote tank sites and two (2) Water Distribution Panels for the DuPage Pumping Station were purchased in March 2024, installation is tentatively scheduled to start in May.

An RFBA appears on the agenda to authorize the purchase of one (1) 2024 Ford Transit Van in Fiscal Year 24/25, pending budget approval.

Alternate Water Source Study

Carollo Engineers has submitted Technical Memorandum No. 09 to their Alternative Water Supply Source report which includes revisions to the scale of the facility designs and identification of associated impacts for servicing DWC and NSMJAWA only. The revised report is under review by DWC and MSNJAWA respective staffs and will be shared with the Committee and the entire Board under separate cover.

Pipeline & Remote Facilities Maintenance Overview

Pipeline staff continue inspecting Remote Facilities and Corrosion Protection Test Stations and performing maintenance and corrective work as needed.

Pipeline staff is working with Rossi Contractors, Inc. installing new anodes and reference electrode/coupon assemblies on 72-inch diameter Inner Belt Transmission Main.

Pipeline staff is completing the annual valve exercising program and is preparing to commence the annual air release valve structure inspections.

Pipeline staff continues monitoring I-294 (NB) Tollway construction work in the vicinity of the Commission's 72-inch water main.

SCADA & Information Technology Overview

The SCADA Replacement Project (Contract PSD-9/21) is ongoing. The SCADA network equipment installation, configuration, and testing is ongoing and will continue throughout April, while the new AV system was completed the first week of April. The DWC campus control panel replacement is scheduled to begin April 15th and is anticipated to continue into May, and upon completion will transition to the replacement of remote site control panels starting with Lexington. The project is progressing under budget and on schedule.

Resolution R-33-24 appears on the agenda to authorize the General Manager to purchase security equipment from a sole source provider, Schneider Electric, at a cost not to exceed \$43,000. The purpose of the purchase is to match the existing security systems and install cameras and access controls to the newly expanded Generator Facility.

Engineering & Capital Improvement Program Overview

The DPPS Emergency Generation System Modifications (Contract PSD-10/22) Project is ongoing. Generator controls, interior life safety systems, HVAC, and electrical work continue to progress. The contractor will begin to commission generator five in mid-April and overall completion of the project is currently scheduled for June 2024.

Resolution R-35-24 appears on the agenda to approve Task Order No. 08 with Northern Inspection Services, LLC. Task Order No. 08 will authorize the completion of the annual 2024 Cathodic Protection Test Point Survey on all Commission distribution pipelines for a not-to-exceed cost of \$60,005.

WaterLink Communities (Montgomery/Oswego/Yorkville)

An Intergovernmental Agreement (IGA) and contract for the Phase II Engineering effort were both approved by the Commission in March, with the IGA also having been approved by the three WaterLink Communities. Similar to Phase I, the WaterLink Communities will be funding Phase II via three deposits to be made into an escrow account in March (2024), September (2024) and January (2025). With all WaterLink Communities having made the initial deposit, the design team of LAN and Associates (LAN) have been asked to commence Phase II Engineering of the WaterLink Project.

Phase II Engineering entails a more detailed engineering design than that which was completed during Phase I. This requires a more substantial review of existing utilities and the associated conflicts in addition to much greater coordination with utility and property owners, transportation departments, local/highway jurisdictions, etc. To that end, the team recently held a coordination meeting with the Illinois Department of Transportation (IDOT) and will be continuing monthly coordination calls with ComEd as approximately 1/3 of the intended pipe alignment is proposed within ComEd right-of-way. An additional alternatives analysis has also recently been completed regarding the segment of the project near Springbrook Prairie in Naperville. Identified route alternatives required extensive analysis to determine the degree of coordination required with the City of Naperville, DuPage County Forest Preserve and Illinois Nature Preserve Commission, as well as permitting and cost implications for each alternative.

Commission staff continues to work with the LAN team in reviewing and advancing critical path items. These efforts, if successful, will lead to reductions in projects costs, construction duration, and disturbance to the public.

April 2024 Commission Agenda Items:

Resolution R-33-24: A Resolution Requesting Suspension of Purchasing Procedures and Authorizing the General Manager to Purchase Security Equipment and Services from a Sole Source Supplier (**Schneider Electric – Not-to-Exceed \$43,000**)

Resolution R-35-24: A Resolution Approving and Ratifying Task Order No. 08 Under a Master Contract with Northern Inspection Services, LLC (**Not-To-Exceed Cost - \$60,005**)

REQUEST FOR BOARD ACTION

Date: 4/11/2024

Description: **A Resolution Requesting Suspension of Purchasing Procedures and Authorizing the General Manager to Purchase Security Equipment and Services from a Sole Source Supplier.**

Agenda Section: Engineering & Construction

Originating Department: Systems & Information Technology

With the Generator Facility expansion as part of the DPPS Emergency Generation System Modification PSD-10/22 nearing completion, Commission staff is recommending the purchase, installation, and configuration of additional security equipment required for the building.

The Commission has employed the services and support of Schneider Electric for the campus's physical security since 2007, including the security cameras and access control systems. The Commission is replacing and upgrading the security camera and access control systems as part of the SCADA project (PSD-9/21) and is requesting the purchase, installation, and configuration of the same anticipated systems to the Generator Facilities newest building section. This would assure continuity of security technology across the main campus.

Staff recommends the purchase and associated installation and configuration services of three (3) Axis Security Cameras, three (3) AX Access Controllers, five (5) Card Readers, and all the associated mounting hardware and electrical components to monitor and secure the five new doorways and Stairwell added to the Generator Facility as part of PSD-10/22.

Approval of this Resolution would provide for the purchase, installation, and configuration of the new security cameras, door access controls, and shipping costs not to exceed \$43,000.

Recommended Motion:

To Adopt Resolution R-33-24

TERMS AND CONDITIONS OF SALE

900512PITC R07/15/21

This quotation and any exhibits and attachments hereto (collectively, "Agreement") and any information contained herein, is the property of Schneider Electric Buildings Americas Inc. ("Company") and shall constitute proprietary and confidential information unless given to a public entity and required by law to be public information. The party to whom this quotation is addressed ("Customer") acknowledges the confidential nature of this Agreement and agrees to take all commercially reasonable and necessary precautions to ensure the confidential treatment of this Agreement and all information contained herein. This Agreement will not be used, copied, reproduced, disclosed or otherwise disseminated or made available, directly or indirectly, to any third party for any purpose whatsoever without the prior written consent of Company. The parties agree to be bound by the following terms and conditions.

- 1. Quotations and Acceptance.** The quotation is based solely on the bid documents, which consist of the project drawings, specifications and/or instructions of the Customer only modified by written agreement or Company objection. Significant deviations between the actual conditions and circumstances of the work and those specified in the bid documents shall be cause for an adjustment in work scope, price and time allowed for performance. Written quotations shall be valid for no more than thirty (30) days from the date of issue, unless specifically stated otherwise herein. Customer may accept the quotation by signing and returning a copy to Company or by returning Customer's own written instrument or order expressly acknowledging the quotation and terms set forth herein, provided, however, Company hereby gives notice of its objection to any different or additional terms or conditions contained or referenced in Customer's order, which will be of no force or effect except as may be expressly agreed to by Company in writing. It is the intent of the parties that these Terms and Conditions of Sale shall govern the sale of goods delivered and services performed. Upon acceptance, this Agreement constitutes the entire understanding between the parties respecting the goods or services delineated herein and supersedes all prior oral or written understandings or representations relating to such goods or services. This Agreement may not be discharged, extended, amended or modified in any way except by a written instrument signed by a duly authorized representative of each party. Company assumes that the Subcontract Agreement offered will contain terms that are substantively similar to the AIA provisions that are in accordance with the provisions of the prime contract, including any supplements. Upon award, Company assumes that contract provisions will be reviewed and negotiated in good faith to reach a mutual acceptance of both parties.
- 2. Payment.** Absent a contrary provision herein, Customer will pay Company monthly progress payments on a net thirty (30) days basis from date of invoice for materials delivered (or stored at an off-site storage facility) and services performed, less any retained reserve which will be mutually agreed upon in writing by the parties. The aggregate amount of any such retained reserves shall be paid by Customer to Company within thirty (30) days after the date of substantial completion. If Company provides a Certificate of Substantial Completion, such certificate shall conclusively establish such date. All invoices due and payable to Company, less any applicable retained reserve, shall accrue interest at a compounded per annum rate not to exceed 1½% per month (18% per annum) or the maximum rate permitted by law. Acceptance and endorsement by Company of an instrument for less than the full amount which Company claims to be due shall not be deemed to be an admission of payment in full and any conditions to the contrary which are noted on such an instrument shall not be binding on Company. If Customer does not pay Company, through no fault of Company, within seven (7) days from the time payment was due, Company may, without prejudice to any other remedy it may have, upon seven (7) additional days' written notice to Customer, stop its work until payment of the amount owing has been received and the contract sum shall be equitably adjusted for reasonable costs of shutdown, delay and startup or in the alternative Company may terminate this contract for material breach and all monies due Company for services performed and materials delivered shall be paid upon demand. Company shall be entitled to recover from Customer all costs for collection, including reasonable attorneys' and professionals' fees. To the extent payments are received and as required by law, and upon Customer's request, Company will furnish lien waivers as the work progresses.

Company reserves a security interest in any goods sold to the extent of the invoiced amount to secure payment of Customer's obligation. In event of payment default, Company may repossess such goods and a copy of the invoice may be filed with appropriate authorities as a financing statement to event or perfect Company's security interest in the goods. At Company's request, Customer will execute any necessary instrument to perfect Company's security interest.

3. **Price and Taxes.** The price for the goods and services hereunder are those shown on the face of this Agreement. The price of this Agreement does not include sales, use, excise, duties or other similar taxes, unless otherwise expressly provided herein. Any taxes (other than taxes due on Company's net income) that are payable hereunder shall be the responsibility of Customer. If applicable, Customer shall provide Company a copy of any appropriate tax exemption certificate for the state(s) into which the goods are to be shipped.
4. **Changes and Claims.** All materials and labor furnished hereunder shall be in accordance with shop drawings submitted by Company and approved by Customer. Any changes in the work as set forth in approved shop drawings, or from the scope of work as described herein, will require a written change order submitted to Company by Customer. An equitable adjustment will be made in the contract price or delivery dates or both, and this Agreement will be modified accordingly in writing. The cost or credit to Customer for performance of such change order shall be determined by mutual written agreement prior to the commencement of any work under such change order. Customer shall notify Company promptly in writing of any circumstances arising from the performance of the work herein described which reasonably may be anticipated to result in a claim or back charge to Company. Upon Company's receipt of such notification, Company shall have five (5) working days in which to remedy such circumstances and to avoid the imposition of such claim or back charge. Company will not be liable for any claim or back charge where Company has not been notified in the manner as set forth above.
5. **Access and Overtime.** This Agreement is based upon the use of straight time labor only during regular working hours (8:00 a.m. to 5:00 p.m., Monday through Friday, excluding Company's holidays). If Customer requests Company to perform any work outside of regular working hours, overtime and other additional expense occasioned thereby will be charged to and paid by Customer. If Company's work is to be performed on the project site, Customer will afford unrestricted access to Company and its employees and agents to all work areas.
6. **Damage or Loss to Equipment.** In the case of equipment not to be installed by or under supervision of Company, Company shall not be liable for damage to or loss of equipment after delivery of such equipment to the point of shipment. In the case of equipment to be installed by or under supervision of Company, Company shall not be liable for damage or loss after delivery by the carrier to the site of installation; if thereafter, pending installation or completion of installation or full performance by

Company, any such equipment is damaged or destroyed by any cause whatsoever, other than by the fault of Company, Customer agrees to promptly pay or reimburse Company an amount equal to the damage or loss which Company incurs as a result thereof, in addition to or apart from, any and all other sums due or to become due hereunder.

7. **Delays.** Customer shall prepare all work areas so as to be acceptable for Company's work required hereunder. Customer acknowledges that the contract sum is based upon Company being able to perform the work in an orderly and sequential manner, as Company so determines. If Company's performance is delayed, interfered with, suspended, or otherwise interrupted, in whole or in part, by Customer, other contractors on the project site, or by any other third party or by any act within the power and/or duty of Customer to control, then Customer agrees that it will be liable to Company for all increased costs and damages which Company incurs as a result thereof. Furthermore, if Company is delayed at any time in the progress of the work by any act or neglect of Customer, or by any separate contractor employed by Customer, or by changes ordered in the work or by labor disputes, fire, delay in transportation, adverse weather conditions, casualties, or any other causes beyond Company's control, then the time for completion of the work shall be extended for a period equal to the time lost by reason of such delay.
8. **Warranty.** Company warrants to Customer that all tangible articles manufactured by Company will be free of defects in workmanship and material and that the work performed will be of good quality and will conform to the requirements of the bid documents. If the article is installed by Company, Company's sole obligation under this warranty shall be to provide, without charge, parts and labor necessary to remedy defects which appear within twelve (12) months from the date of beneficial use or occupancy, as applicable. If Company provides a Certificate of Substantial Completion, such certificate shall conclusively establish such date. If article is not installed by Company, the warranty period shall be within twelve (12) months of shipment of said article. Warranty claim must be made to Company in writing within such twelve (12) month period. All transportation charges incurred in connection with the warranty for equipment not installed by Company shall be borne by Customer. Company warrants that for equipment furnished and or installed, but not manufactured by Company, Company will extend the same warranty terms and conditions which Company receives from the manufacturer of said equipment.

This warranty is the sole and exclusive warranty given with respect to any articles delivered or services performed by Company. THE WARRANTIES SET FORTH ABOVE ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES EXPRESS OR IMPLIED (EXCEPT WARRANTIES OF TITLE), INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. This warranty is subject to proper installation of the articles (if installation is not performed by Company or authorized subcontractors of the Company) and maintenance and storage of the articles in accordance with the specifications and directions supplied by Company. This warranty does not apply to any defect, malfunction or failure caused by repairs made by other than or without the consent of Company or the article has been subject to abuse, misuse, neglect, tampering, accident or damage by circumstances beyond Company's control, including without limitation, acts of God, war, acts of government, corrosion, power fluctuations, freeze-ups, labor disputes, differences with workmen, riots, explosions, vandalism, or malicious mischief, nor to defective associated equipment or use of the articles with equipment for which they were not sold. All of Company's obligations under this warranty will immediately terminate and be of no further force or effect if all or any part of the purchase price (including any installment payment) with respect to any article covered by this warranty is not paid to Company when due. If cause of defect is found not to be Company's responsibility, standard rates for repair or replacement and labor shall apply.

9. **Limitation of Liability.** In no event will Company's total aggregate liability in warranty or contract exceed the contract price paid for the specific product or service that gives rise to the claim excluding third party claims for personal injury, death or as may be required by law. IN NO EVENT SHALL COMPANY BE LIABLE FOR ANY LOST PROFITS, LOSS OF USE, DATA, LOSS OF GOODWILL, BUSINESS INTERRUPTION OR ANY OTHER SPECIAL, INDIRECT, INCIDENTAL, PUNITIVE OR CONSEQUENTIAL DAMAGES OF ANY KIND EVEN IF COMPANY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
10. **Laws and Permits.** Company shall comply with all applicable federal, state, and local laws and regulation and shall obtain all temporary licenses and permits required for the prosecution of the work. Licenses and permits of a permanent nature shall be procured and paid for by the Customer. This contract shall be interpreted and governed under and in accordance with the laws of the jurisdiction in which the goods are delivered or services are performed without regard to its choice of law provisions.
11. **Disputes.** Any controversy or claim arising out of or relating to this Contract, or the breach thereof, shall be settled by good faith consultation and negotiation. If those attempts fail, either party shall provide written notice within thirty (30) days to the other to mutually agree on an arbitration process. If a process is not agreed upon within thirty (30) days, final and binding arbitration in accordance with the then current Construction Industry Arbitration Rules of the American Arbitration Association shall commence and judgment upon the award rendered may be entered in any court having jurisdiction thereof. The arbitration shall be held in the federal, state or municipal courts serving the county in which the project is located unless the parties mutually agree otherwise. The prevailing party shall recover all reasonable legal costs and attorney's fees incurred as a result, which shall be promptly paid by the non-prevailing party. Any dispute or demand for arbitration must be commenced within one (1) year after the cause of action has accrued. Nothing herein shall limit any rights Company may have under construction mechanic or materialmen lien laws. Company shall have the right to suspend affected services pending resolution of disputes.
12. **Insurance.** The parties shall each maintain insurance coverage including without limitation, Workers' Compensation and Employer's Liability at statutory limits, Automobile Liability covering all owned, hired and other non-owned vehicles, and Commercial General Liability covering public liability and property damage with limits generally required for its respective industry with not less than \$1,000,000 minimum coverage per occurrence. Such insurance shall be with reputable and financially responsible carriers authorized to transact business in the jurisdiction in which the project and services are being performed. No credit will be given or premium paid by Company for insurance afforded by others.
13. **Clean Up.** Company agrees to keep the job site clean of debris arising out of its operations. Customer shall not back charge Company for any costs or expenses for clean up or otherwise without prior written notice and Company's written consent.
14. **Severability.** The invalidity or unenforceability of any provision herein shall in no way affect the validity or enforceability of any other provision.

15. **Disclaimer.** Company reserves the right to amend, withdraw or otherwise alter this submission without penalty or charge as a result of any event beyond its control arising from or due to the current COVID-19 epidemic or events subsequent to this epidemic / pandemic including changes in laws, regulations, by laws or direction from a competent authority. The Customer

acknowledges that the products or part thereof are produced in, or otherwise sourced from, or will be installed areas already affected by, or that may be affected in the future by, the prevailing COVID-19 epidemics/pandemic and that the situation may trigger stoppage, hindrance or delays in Company's (or its subcontractors) capacity to produce, deliver, install or service the products, irrespective of whether such stoppage, hindrance or delays are due to measures imposed by authorities or deliberately implemented by the Company (or its subcontractors) as preventive or curative measures to avoid harmful contamination exposure of Company's (or its subcontractors') employees. The Customer therefore recognizes that such circumstances shall be considered as a cause for excusable delay not exposing the Company to contractual sanctions including without limitation delay penalties, liquidated or other damages or termination for default.

16. **Ethics and Compliance with Laws.** Each party shall comply in all respects with all applicable legal requirements governing the duties, obligations, and business practices of that party. Neither party shall take any action in violation of any applicable legal requirement that could result in liability being imposed on the other party. In the event Customer has concerns related to ethics, compliance, or Company's Principles of Responsibility, and/or any potential violations of these policies, Customer is welcome to make use of Company's GreenLine. The GreenLine is Company's global helpline for external stakeholders. It is a confidential channel through which Customers can ask questions and raise concerns. Reports can be made using the link: <https://secure.ethicspoint.eu/domain/media/en/gui/104677/index.html>.

17. Cybersecurity.

17.1. **Customer's Obligations for Its Systems:** Customer is solely responsible for the implementation and maintenance of a comprehensive security program ("Security Program") that contains reasonable and appropriate security measures and safeguards to protect its computer network, systems, machines, and data (collectively, "Systems"), including those Systems on which it runs the Products or Services provided by Company, against Cyber Threats. "Cyber Threat" means any circumstance or event with the potential to adversely impact, compromise, damage, or disrupt Customer's Systems or that may result in any unauthorized access, acquisition, loss, misuse, destruction, disclosure, and/or modification of Customer's Systems, including any data, including through malware, hacking, or similar attacks.

17.2. Without limiting the foregoing, Customer shall at a minimum:

- (a) have qualified and experienced personnel with appropriate expertise in cybersecurity maintain Customer's Security Program, and have such personnel regularly monitor cyber intelligence feeds and security advisories applicable to Customer's Systems or Customer's industry;
- (b) promptly update or patch its Systems or implement other appropriate measures based on any reported Cyber Threats and in compliance with any security notifications or bulletins, whether publicly disclosed on Company's security notification webpage at <https://www.se.com/ww/en/work/support/cybersecurity/security-notifications.jsp> or otherwise provided to Customer;
- (c) regularly monitor its Systems for possible Cyber Threats;
- (d) regularly conduct vulnerability scanning, penetration testing, intrusion scanning, and other cybersecurity testing on its Systems; and
- (e) meet the recommendations of Company's Recommended Cybersecurity Best Practices, available at <https://www.se.com/us/en/download/document/7EN52-0390/>, as may be updated by Company from time to time, and then-current industry standards.

17.3. **Customer's Use of the Products, Software, and Services:** Company may release Updates and Patches for its Products, Software, and Services from time to time. Customer shall promptly install any Updates and Patches for such Products, Software, or Services as soon as they are available in accordance with Company's installation instructions and using the latest version of the Products or Software, where applicable. An "Update" means any software that contains a correction of errors in a Product, Software, or Service and/or minor enhancements or improvements for a Product, Software, or Service, but does not contain significant new features. A "Patch" is an Update that fixes a vulnerability in a Product, Software, or Service. Customer understands that failing to promptly and properly install Updates or Patches for the Products, Software, or Services may result in the Products, Software, or Services or Customer's Systems becoming vulnerable to certain Cyber Threats or result in impaired functionality, and Company shall not be liable or responsible for any losses or damages that may result.

17.4. **Identification of Cyber Threats:** If Customer identifies or otherwise becomes aware of any vulnerabilities or other Cyber Threats relating to the Products, Software, or Services for which Company has not released a Patch, Customer shall promptly notify Company of such vulnerability or other Cyber Threat(s) via the Company's Report a Vulnerability page (<https://www.se.com/ww/en/work/support/cybersecurity/report-a-vulnerability.jsp#Customers>) and further provide Company with any reasonably requested information relating to such vulnerability (collectively, "Feedback"). Company shall have a non-exclusive, perpetual and irrevocable right to use, display, reproduce, modify, and distribute the Feedback (including any confidential information or intellectual property contained therein) in whole or part, including to analyze and fix the vulnerability, to create Patches or Updates for its customers, and to otherwise modify its Products, Software, or Services, in any manner without restrictions, and without any obligation of attribution or compensation to Customer; provided, however, Company shall not publicly disclose Customer's name in connection with such use or the Feedback (unless Customer consents otherwise). By submitting Feedback, Customer represents and warrants to Company that Customer has all necessary rights in and to such Feedback and all information it contains, including to grant the rights to Company described herein, and that such Feedback does not infringe any proprietary or other rights of third parties or contain any unlawful information.

18. Import and Export.

18.1. The Products and Services provided by Company under this Contract contain or may contain components and/or technologies from the United States of America ("US"), the European Union ("EU") and/or other nations. Customer acknowledges and agrees that the Products, assignment and/or usage of the Products, Software, Services, information, other deliverables and/or the embedded technologies (hereinafter referred to as "Deliverables") under these Terms and

Conditions of Sale shall fully comply with related applicable US, EU and other national and international export control laws and/or regulations.

18.2. Unless applicable export license/s has been obtained from the relevant authority and Company has approved, the Deliverables shall not (i) be exported and/or re-exported to any destination and party (may include but not limited to an individual, group and/or legal entity) restricted by the applicable export control laws and/or regulations; or (ii) be used for those purposes and fields restricted by the applicable export control laws and/or regulations. Customer also agrees that the Deliverables will not be used either directly or indirectly in any rocket systems or unmanned air vehicles; nor be used in any nuclear weapons delivery systems; and will not be used in any design, development, production or use for any weapons which may include but not limited to chemical, biological or nuclear weapons.

18.3. If any necessary or advisable licenses, authorizations or approvals are not obtained, whether arising from inaction by any relevant government authority or otherwise, or if any such licenses, authorizations or approvals are denied or revoked, or if the applicable export control laws and/or regulations would prohibit Company from fulfilling any order, or would in Company's judgment otherwise expose Company to a risk of liability under the applicable export control laws and/or regulations if it fulfilled the order, Company shall be excused from all obligations under such order and/or these Terms and Conditions of Sale.

REQUEST FOR BOARD ACTION

Date: 4/11/2024

Description: **A Resolution Approving and Ratifying Task Order No. 08 Under a Master Contract with Northern Inspection Services, LLC**

Agenda Section: Engineering & Construction

Originating Department: Engineering

The Commission entered into a Master Contract with Northern Inspection Services, LLC for professional engineering services on August 23, 2021, in connection with such discrete projects as are delineated and described in Task Orders to be approved by the Commission. Resolution No. R-35-24 would approve Task Order No. 08 to the Master Contract:

Task Order No. 08: Corrosion Control Program - 2024 Test Point Survey

Task Order No. 08 would authorize the consultant to conduct a Test Point Survey across the Commission's transmission and distribution system piping, covering a distance of nearly 184 miles.

The Test Point survey work will entail recording data at each one of the Commission's cathodic protection test stations, including pipe-to-soil readings, casing-to-soil readings, anode current readings and electrical isolation testing. A comprehensive report summarizing the results of the data shall be provided to the Commission for review and will include, among other things, an evaluation of data obtained and recommendations for future testing and/or mitigation. To maintain the Commission's efforts with respect to establishing and monitoring corrosion trends and activity over the long term, it is recommended that a Test Point survey be repeated on a yearly basis. The not-to-exceed cost for this Task Order is \$60,005.

Recommended Motion:

To adopt Resolution No. R-35-24.
